

THERE IS A BETTER WAY...

### Free Live Expert Technical Support

Keyway only has one support option: Real live human contact. Unlike many other technology companies, we enjoy speaking with our customers.

### No Forced Pop-Up Advertising

We dislike pop-up advertising. There, we said it. Our clients enjoy quick direct Internet access with the privacy they deserve. We'll even provide assistance in blocking and removing unwanted advertising from your computer.

### Unlimited *Anywhere* Web-Mail with Spam Filters

Read, compose and send Keyway e-mail from any computer, at any location. Our in-browser interface allows you communicate without additional e-mail software. We'll also filter out that unwanted unsolicited spam.

### Packaged Solutions

Everyone has different needs and Keyway is experienced in customizing packages to give you the right services at the right price. Of course, our free live support comes with every element of your customized Internet service.

### Professional Web Design

Whether you require a simple static information site or a dynamic commerce site, Keyway Design Services has the experience required to build the perfect site for your needs.

### 24-Hour Server and Line Monitoring

Many external elements can impact the performance of your Internet service. Keyway continuously monitors these elements so you can enjoy the optimal Internet experience.

BUSINESS SERVICES

- ▶ Full Service Small Business Technical Support
- ▶ High-Speed Frame Relay & Point-to-Point T1
- ▶ DSL Broadband
- ▶ Wireless Broadband
- ▶ ISDN / Dial-up
- ▶ Wireless Fidelity (Wi-Fi)
- ▶ Co-Location and Dedicated Hosting

**key opportunity** **Wi Fi ZONE**

Keyway Internet Services is an authorized Wireless Fidelity (Wi-Fi) provider. Wi-Fi enabled devices are able to send and receive data anywhere indoors or outdoors without a wired Internet connection. A wireless internet signal will add value for your customers, whether they are planning a business luncheon or simply having a cup of coffee.

Keyway will setup your wireless broadcast, provide getting-started materials for your staff and customers, and provide support for your high-speed wireless connection. Please call **888-253-9929** to confirm availability in your area.
